

SUBSCRIPTION AND WEBSITE OWNERSHIP POLICY

For monthly plans, digital product subscriptions, virtual assistants, websites, domains, and transfer rules.

Effective Date: 07/06/2026

1. Purpose

This Subscription and Website Ownership Policy explains how Judo Marketing handles monthly subscriptions, digital product subscriptions, virtual assistant subscriptions, marketing packages, website subscriptions, domain ownership, account access, and transfer of deliverables.

2. Subscription Services

Subscriptions may include website management, hosting coordination, digital product access, virtual assistant access, automation support, minor updates, marketing packages, content support, advertising management, technical maintenance, consulting, or other recurring services described in the applicable plan.

The exact services included depend on the subscription selected. Anything not expressly included is outside the subscription scope and may require an additional quote.

3. Included Minor Updates

When included in the selected plan, minor updates may include:

- Small text edits.
- Image replacements.
- Appointment link changes.
- Basic form field updates.
- Small layout adjustments.
- Minor service description updates.
- Basic troubleshooting related to existing setup.

Minor updates do not include new websites, full redesigns, new pages, new branding, custom development, complex automations, new advertising campaigns, new funnels, new integrations, emergency work, or major strategy changes unless included in writing.

4. Digital Products and Virtual Assistants

Digital products and virtual assistants may be provided as subscription-based access, customized systems, or managed services. Access may depend on continued payment, third-party platforms, software accounts, integrations, and active service status.

- The client is responsible for testing digital products before operational use.
- Outputs must be reviewed by the client before being sent, published, relied upon, or used with customers, patients, employees, or the public.
- Judo Marketing may update, improve, suspend, or modify digital products for security, technical, legal, operational, or platform-related reasons.
- Access may be suspended if payment fails, if use creates compliance risk, or if the product is used outside its approved purpose.

5. Website Subscription Ownership Rule

For website subscription plans that state the client owns the website and domain after the third month of service, ownership transfers only when all of the following conditions are satisfied:

1. The client has paid the first three monthly subscription payments in full.
2. The account has no unpaid invoices, chargebacks, disputes, or outstanding balances.
3. The client has complied with these policies and any applicable proposal or service agreement.

4. Any third-party transfer fees, registrar fees, hosting fees, or platform fees required for transfer have been paid.

Before these conditions are satisfied, Judo Marketing may retain administrative control over the website, domain, hosting, platform, and related technical assets.

6. Domain Names

If Judo Marketing purchases or manages a domain on behalf of the client, ownership transfer depends on the subscription terms and account status. Domain transfers are subject to registrar rules, lock periods, verification requirements, renewal status, and third-party fees.

The client is responsible for keeping domain ownership information accurate after transfer. Judo Marketing is not responsible for domain expiration, DNS changes, renewal failure, transfer delays, or registrar limitations after transfer.

7. Website Files and Platform Access

Final website access, admin access, hosting access, files, export packages, or transfer credentials may be provided after ownership conditions are satisfied. Judo Marketing is not required to transfer internal templates, editable source files, proprietary systems, backend workflows, reusable components, internal notes, draft concepts, strategy documents, or third-party licensed assets unless expressly agreed in writing.

8. Paused or Canceled Subscriptions

If a subscription is canceled, paused, unpaid, or terminated, recurring services stop. This may include updates, support, hosting coordination, virtual assistant access, automations, monitoring, advertising management, maintenance, and troubleshooting.

If the client later wants to reactivate, onboarding, repair, reconfiguration, platform reconnection, or reinstatement fees may apply.

9. Buyout Option

If a client wants to cancel before the ownership transfer period is completed, Judo Marketing may offer a buyout option at its discretion. A buyout may include unpaid subscription months, setup value, design value, development work, domain costs, administrative time, third-party fees, and transfer fees. No buyout is guaranteed unless agreed in writing.

10. Portfolio Use

Unless the client requests confidentiality in writing, Judo Marketing may identify completed public-facing work in its portfolio, case studies, screenshots, website examples, or marketing materials, provided confidential or sensitive information is not disclosed.
